

IXL Diagnostic

QUICK-START GUIDE

- The IXL Diagnostic pinpoints students levels of understanding in math and English language arts, and it can be accessed anytime.
- Parents receive up-to-the-minute insights, and students are offered tailored recommendations.
- After students reveal their levels, answering 10–15 questions a week will keep the Diagnostic up to date!

1

Have your students sign in to IXL at ca.ixl.com and walk them through the following steps!

The screenshot shows the IXL website interface. At the top, there's a navigation bar with 'Learning', 'Diagnostic', and 'Analytics' tabs, and a 'MEMBERSHIP' button. Below this is a large banner with the text 'IXL is personalized learning' and three main features: 'Comprehensive K-12 curriculum', 'Trusted by educators and parents', and 'Immersive learning experience'. A yellow arrow points to the 'Sign in' button in the top right corner of the banner area. Below the banner, there are six boxes representing different grade levels: JK, Kindergarten, Grade 1, Grade 2, Grade 3, and Grade 4. Each box lists the subjects (Math, English, Science) and the number of skills available for each subject.

Grade	Math Skills	English Skills	Science Skills
JK	76 skills >>	83 skills >>	-
Kindergarten	191 skills >>	131 skills >>	49 skills >>
Grade 1	228 skills >>	173 skills >>	58 skills >>
Grade 2	-	-	-
Grade 3	-	-	-
Grade 4	-	-	-

- 2 Click on **Diagnostic** to head to the Diagnostic arena.

- 3 Click **Step into the Arena**.

4

You'll have a choice of questions. Click one to begin.

The screenshot shows the IXL Diagnostic interface. At the top is a green navigation bar with the IXL logo and links for 'My IXL', 'Learning', 'Diagnostic', and 'Analytics'. A search icon and the user's name 'Katie' are on the right. Below the navigation bar is a light blue banner with 'See your levels' on the left and 'Math and language arts' with a dropdown arrow on the right. The main area has a light blue background with the text 'Your choice! Which question would you like to answer next?'. Two question cards are displayed. The left card asks 'Is this angle acute, right, obtuse, or straight?' and shows an acute angle with four buttons: 'acute', 'right', 'obtuse', and 'straight'. The right card asks 'Convert: 8 kilograms = [] grams'.

When there are two questions offered, they both are equally valuable, so choose whichever one you'd like to try!

5

Answer the question. Try your best!

This screenshot shows the same IXL Diagnostic interface as before, but with annotations. A yellow box labeled 'Choose your answer.' has an arrow pointing to the 'acute' button. Another yellow box labeled 'Click **Submit**.' has an arrow pointing to the green 'Submit' button. A third yellow box on the right says 'Haven't learned this yet? Click here to let the Diagnostic know and move on to another question.' with an arrow pointing to the 'I don't know this yet >' link at the bottom right of the question card.

6

After every answer, the Diagnostic works behind the scenes, making meaningful connections about you!

7

Keep answering targeted questions to narrow down what you know and what you're ready to learn!

When the Diagnostic learns something new about you, you'll receive a notification.

? You can answer as many questions as you like! There isn't a set stopping point and you can come back to the Diagnostic at any time.

8

Click **here** to change which subjects you're focusing on.

9

Click on **See your levels** to view your diagnostic stats.

10

Check out your current levels and learn more about yourself!

? Teachers, Analytics has even more diagnostic reporting available for you to gain insights into your students!

11

Continue answering questions to pinpoint your overall levels, reading level and exact level in every strand.

To answer more diagnostic questions, click **Step into the arena**.

? What do the IXL levels mean? An IXL Diagnostic level of 500 represents readiness to begin working on fifth-grade level skills

12

When you are ready to strengthen your knowledge in a strand, click on your recommended skills!

13

Explore all the skills recommended just for you, and select one to work on!

The screenshot shows the IXL Recommendations page. The top navigation bar includes 'My IXL', 'Learning', 'Diagnostic', and 'Analytics'. Below this, there are tabs for 'Math', 'English', 'Recommendations', 'Skill plans', 'Provincial curriculum', and 'Awards'. The 'Recommendations' tab is active, displaying a grid of skill cards. Two yellow callout boxes provide instructions: one points to a skill card titled 'Least common denominator' (Grade 7) with the question 'What is the least common denominator of $\frac{8}{11}$, $\frac{5}{6}$, and $\frac{4}{5}$?' and another points to a skill card titled 'Choose the analysis that logically supports the claim' (Grade 10) with a reading passage about television. The first callout says 'Click on any recommendation to go to that skill!' and the second says 'This indicates the skill is recommended for you by the Diagnostic.'

**The Diagnostic is always available.
Come back often!**

Try to answer 10–15 questions a week to keep your levels up to date.
